- Built-in ball valve for flow control and vacuum breaker for backflow protection
- ASSE 1019 & CSA B125 certified

Compatibility	All Aquor hydrants & valves
Color	Slate Gray
Outlet	3/4" GHT (m)
Backflow Protection	Yes
Operating Temperature	33-140 °F
Operating Water Pressure	25-125 PSI
Flow Rate	6.8 GPM @ 52 PSI
Connector Material	Acetal Resin Polymer & EPDM Rubber
O-Ring Material	Fluorocarbon Rubber
Warranty	5 Years
Certifications	ASSE 1019 & CSA B125
SKU	CN-VB3

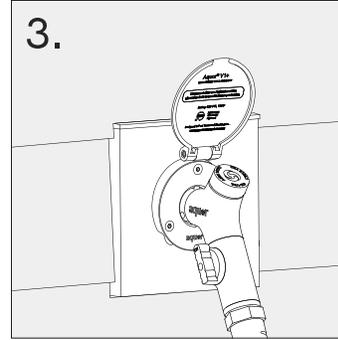

Connecting to your Aquor Hydrant

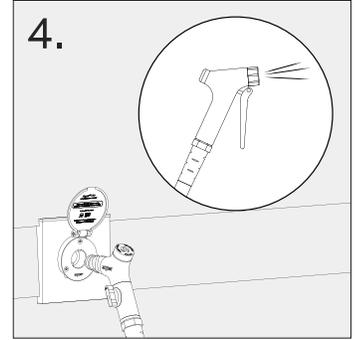

First thread your hose connector onto any hose.

To connect, align the 3 grooves on the connector with the nibs on the hydrant. Gently push in, then twist clockwise.

Once you connect, the valve opens and water flow starts instantly.

Disconnect and depressurize your hose before storing.
