Care & Maintenance

Gently clean with warm water and a mild liquid detergent to remove any dirt or debris. Do not use steel wool to clean stainless steel.

Stainless Steel Mounting Box - V2+

MB-SSBOX-2A -2B -2C

Installation

1) Secure mounting box to sheathing.

2) Use flange clearance holes to attach to sheathing. Ensure the box is installed level. Flange may be covered with liquid or tape flashing for weatherproofing. Install flange under rainscreen and siding layers. Flange should not be visible when complete.

3) Attach hydrant to the mounting box with included machine screws.

4) Install siding.
